

## **PINE CONE BIRD FEEDERS**

### **Supplies Needed**

Pine cones

Yarn or twine

Shortening or peanut butter

Birdseed

### **Directions**

1. Coat a pine cone completely in shortening (i.e. Crisco) or peanut butter.\*
2. Roll it in birdseed
3. Tie it with a string long enough to hang it on a tree branch
4. Hang the seeded pine cones outside on a tree, bush or other place accessible to small birds.

Enjoy watching small birds enjoy this special treat.

\*When in classroom or public art/craft making setting, shortening is a wiser choice, as there may be people with severe nut allergies.
